Education

Class	Board	Marks
B. Tech., Electronics and Communications Engineering	Jawaharlal Nehru Technological University	68.54
12th	BIEAP	90.00
10th	APBSE	92.15

Skills

Programming Languages	C, Python, HTML
Database	MySQL
Operating Systems	Windows XP/Vista/7
Certifications	
Software	MS Word, MS Excel, MS PowerPoint
Technologies	Machine learning, PLC (Programming Logical Controllers)

Projects

INCOME PREDICTION   **Jun, 2019 - Jun, 2019**

To predict the income of an individual by taking certain features by using MACHINE LEARNING technology.
Technologies used:
Machine Learning using PYTHON
Role: Team lead and pre-processed the data and displayed project as a product based using HTML, CSS and flask. I have gone through pre-processing techniques like label encoding , correlation , one hot coding, histogram. Later project is suitable of KNN (k nearest neighbour value) a classified algorithm, as we have predicted the result with classified Algorithm.

SOLVE_A_THON WEBPAGE   **July,2019 – July,2019**

Designed a web page front end for the registration and login. By the technologies using HTML, CSS.
